THE  
**POPULAR SCIENCE MONTHLY**  
FOR 1892.

*A culture that lacks science is a one-sided culture.*

THE POPULAR SCIENCE MONTHLY is the one periodical that gives access to the scientific culture of the time, and it will in the future represent scientific thought and achievement even more fully than it has in the past.

Volumes XL and XLI. The valuable series of illustrated articles on

**THE DEVELOPMENT OF AMERICAN INDUSTRIES SINCE COLUMBUS,** now running in the MONTHLY, will be continued into the coming year. There have already been published three articles on **The Woolen Manufacture**, by S. N. H. NORTH; four articles on **The Making of Iron** and two on **The Making of Steel**, by W. F. DUFFEE. The first of two articles on **American Pottery** appears in the December number. All of these are profusely illustrated; and similar papers on **The Cotton Manufacture**, by EDWARD ATKINSON and Gen. W. F. DRAPER; **Piano Making**, by DANIEL SPILLANE; **Glass-Making**, by Prof. C. HANFORD HENDERSON; and on **The Leather, Silk, Paper, Agricultural Machinery, and Ship-building Industries** will appear in course.

Hon. CARROLL D. WRIGHT will continue his incisive **Lessons from the Census**; Dr. ANDREW D. WHITE will contribute some concluding papers on **The Warfare of Science**, and there will be occasional articles from Hon. DAVID A. WELLS and DAVID STARR JORDAN, President of Stanford University.

The other contents of the coming numbers can not be definitely announced at this time, but the character of the contributions may be inferred from

**SOME OF THE ARTICLES OF THE PAST YEAR.**

THE STORAGE OF ELECTRICITY (illustrated), Prof. Samuel Sheldon.  
THE DECLINE OF RURAL NEW ENGLAND, Prof. A. N. Currier.  
CULTIVATION OF SISAL IN THE BAHAMAS (illustrated), J. I. Northrop, Ph.D.

UNIVERSITY EXTENSION, Prof. C. Hanford Henderson.  
SOME OF THE POSSIBILITIES OF ECONOMIC BOTANY, Prof. G. L. Goodale.

Twenty years ago our first number was issued with the following statement: "THE POPULAR SCIENCE MONTHLY has been started to help on the work of sound public education, by supplying instructive articles on the leading subjects of scientific inquiry. It will contain papers, original and selected, on a wide range of subjects, from the ablest scientific men of different countries, explaining their views to non-scientific people." This task has grown larger and more important with the continual growth of science, and the scope and resources of the MONTHLY have been correspondingly widened. No pains will be spared for its adequate performance in the future.

PATENTEES AND MANUFACTURERS OF

## STEREO RELIEF CEILING AND WALL DECORATIONS,

Wainscoting, Friezes, Borders, Panels, Vignettes, Ornamental Centre Pieces, Carvings, Mouldings, Advertising Signs, Letters and Figures, and Corner Scrolls for Signs, &c.

Ceiling in Fire-Proof Stereo Relief.

A Dado in Fire-Proof Stereo Relief.

Wall Filling, Dado and Frieze in Fire-Proof Stereo Relief.

### The Stereo Relief Decorative Composition.

THE Stereo Composition can be moulded into an infinite variety of artistic forms, in pure white or in tint, and can be gilded, silvered or bronzed, thus readily reproducing or duplicating any desired design furnished by architects or decorators. This substance contains no oil, white lead, or other inflammable material, and is absolutely fire-proof and sanitary. It is not affected by contact with water or by any sudden change of temperature. Its expense is less than that of any other artistic decoration, and it fully equals the best in beauty, while it surpasses all others in the essentials of Strength, Lightness, Adhesiveness and Non-Inflammability. It is admirably adapted for the decoration of churches, theatres, public halls, hotels, restaurants and private residences; and, as a substitute for paint, paper, frescoing, kalsomining or other hard finish, it is infinitely more economical—quality and durability being considered.

### Stereo Relief Friezes, Dadoes, Panels, Etc.

The Company has always on hand a large and elegant assortment of friezes, wall fillings, borders, panels, dadoes, rosettes, etc., etc., in relief, manufactured from its Stereo Composition. This material is far superior to papier-maché, or plaster; is light, but strong and substantial, and admits of the application of any desired style of ornamentation. These decorations, embracing entirely new designs, are made in very high, as well as low relief, and are readily and safely handled.

Your attention is especially asked to the fact that our work is complete before it is sent out from our factory, and can be put up by any workman in the decorative trade, thus enabling our patrons who are at a distance to render perfect satisfaction to their customers.

The high relief in which this new composition can be produced forms one of its prominent features, an elevation of six or eight inches being as readily shown as one of half an inch. And, as the material is cast in flexible moulds, a perfect under-cut—that great desideratum of artistic relief work—is obtained with ease. In representations of heads and figures, a life-like resemblance is effected; and architectural details are also followed with a similar fidelity; while in fruits, vines and flowers, the grace, beauty and pose of nature are retained, and the stiffness and preciseness of stamped work, such as the Lincolnton-Walton or papier-maché, are avoided. In conclusion, we claim that there is a great public need of productions such as ours, and we believe that, in our new material, we have reached the desired point of perfection.

Pre-eminent in all elements of decoration, and its development and practicability established beyond peradventure, we most respectfully ask your co-operation in the ultimate establishment of the Stereo Relief Decorations as a leader for all kinds of wall and ceiling ornamentation.

We invite correspondence, and, having no fear of competition, shall be glad to furnish estimates promptly. Personal inspection of our work is solicited, as well as a visit to our factory and salesroom.

## Gobelin Flax Tapestries

Under this name I have recently introduced into the American market a new textile fabric for wall covering, suitable for Halls, Dining-rooms, Libraries, Art Galleries, Parlors, etc.  
The Gobelin Flax Tapestries are very durable and can be pasted on like ordinary wall-paper.  
A great variety of patterns are manufactured in the different styles—Rococo, French, Italian, Spanish and German Renaissance, Gothic, Heraldic, Henry II., Lou's XIV., Moorish, Persian, etc. besides a large assortment of the most aesthetic modern designs. The peculiar texture of the fabric produces an irregular grain of Gobelin effect which cannot be obtained on any other texture. It is the only fabric which shows the grain below the transparent coloring.  
Prices are not much higher than those of fine embossed wall-papers.
